Sanchez Ramirez, Dominican Republic, Ph. 809-331-7878

Senior Cost Accountant, Mining and Maintenance Operations Finance

Barrick is a Gold Mine I started like ORT tires and cost planner to prepare budget with the Xeras, Klinge and Oracle programs. In this first position I made cost and budget reports, made reforecast to the original budget, prepare the AFE project format for the sustaining capital items to purchase all mining equipment like haul trucks, dozers, graders, drill rigs, major components and others, created actives in Oracle for mayor components changeouts, planned the tires replacement for the mining equipments, loaded hour meters, created and closed work orders, d mobile equipment list manage assets , made requisitions, made the department monthly report, uploaded and organized the departments' reports and documents into LiveLink, made and followed up service requisitions mai

On May 2013 I was promoted to the position Senior Cost Accountant for Mine and Maintenance Operations from Finance department. In this position I am the responsible to do the reclass, accruals, allocations and Cost reports for the months ends, besides I am the responsible to work help users , review and upload to the system the budgets and forecasts from both areas. I have to follow up invoices status and confirm the vendors received the payment on time. Train the users how to code requisitions to charge the cost to the correct area share the budget and forecasts approved with the users to let them know the amount approved and the available balance they have to manage their departments. Audit the inventory for the commodities, prepare financial analysis to evaluate the process and make improvements based on these numbers.
